

# CHOOSE GREEN

# Choose Green

Motion Industries is committed to proactively serve industry through responsible and respectful use of our resources.

We seek to promote products to support high quality, process efficient, productive, and sustainable contributions to environmental business practices.

We will engage our suppliers and customers in environmentally responsible activities as stewards of sustainability for future generations.

## ENERGY EFFICIENT

At Motion Industries, we offer our customers a full line of motors and drives that are consistent with the guidelines outlined in the 2007 Energy Act, in addition to energy efficient belt drives, conveyor belting, and a wide variety of gearing, hydraulics and lifts. We know that reducing energy usage and costs is not only better for the environment, it's just smart business.

- Motors
- Drives
