CONVEYOR BELTING & ACCESSORIES

Motion Industries’ Hose and Rubber Service Centers will assist you in selecting the right conveyor belt and related accessories to meet your needs – no matter how simple or complex the request. Our highly trained service personnel are ready to assist you.

CONVEYOR BELTING

• Belt Scrapers
• Conveyor Pulleys
• Conveyor Belt Idlers

CONVEYOR ACCESSORIES

• Heavy duty belt cleat ratings from 180 PSI to 2250 PSI
• Polyester Warp/Nylon Fill
• Straight Warp and Glass Carcasses
• Industrial Cover Compounds
• General Service - Fire Resistant
• Heat and Oil Resistant
• Multifilament Spun Polyester
• Single and Multilayed Monofilament
• Single and Interwoven Canvas
• Industrial Cover Compounds

STEEL CORD

• 160 PIW to 2250 PIW
• Heavy duty belting w/tensile ratings
• Conveyor Belt Idlers
• Conveyor Pulleys
• Belt Scrapers
• Conveyor Design Assistance
• Chute / Cyclone / Pipe / Wear Lining - Ceramic and Rubber
• Pulley Lagging
• Longitudinal Splicing up to 141" - Belt Guards and Vacuum Belts
• Custom Fabrication
• Punching for Elevator Buckets
• V-Guiding / T-Cleats
• Field Splicing - MSHA Part 46 Certified
• In-Shop Splicing - MSHA Part 46 Certified
• Field Splicing - MSHA Part 46 Certified
• Crushing / T-Clips
• Punching for Elevator Buckets
• Custom Fabrication
• Belt Guards and Vacuum Belts
• Longitudinal Splicing up to 141"
• Pulley Lagging
• Ceramic and Rubber
• Chute / Orifice / Pipe / Wear Lining
• Conveyor Design Assistance
• Technical Support
• On-Duty Field Specialists
• Extensive Inventory
• Plant and Safety Surveys

HEAVY RUBBER CONVEYOR BELTING

• Heat and Oil Resistant
• Fire Retardant
• General Service
• Industrial Cover Compounds
• Tensile Ratings from ST-500 to ST-5400

STEEL-CORED

• Fabrication
• Field Splicing - MSHA Part 40 Certified
• Crushed / T-Clips
• Punching for Elevator Buckets
• Custom Fabrication
• Belt Guards and Vacuum Belts
• Longitudinal Splicing up to 141"
• Pulley Lagging
• Ceramic and Rubber
• Chute / Orifice / Pipe / Wear Lining
• Conveyor Design Assistance
• Technical Support
• On-Duty Field Specialists
• Extensive Inventory
• Plant and Safety Surveys

INDUSTRIAL HOSE

• Rubber, Plastic and Teflon
• 1", 12" ID (pressure ratings to 500 psi and full vacuum)
• Wide range of hose ends
• Band on
• Clamp
• Swage
• Internally expanded
• Stainless Steel Corrugated Braided and Interlock 1/4" through 8" ID
• Larger Diameters per request
• Stainless 304, 301, 316 and other alloys

HYDRAULIC HOSE

• Rubber and Thermoplastic
• Braided and Spiral
• Pressure up to 10,000 psi
• 1/4" through 12" ID
• (meets 3A/91 - 3A/913 specs)

FITTINGS & ACCESSORIES

• Camlocks
• Clamps
• Air Fittings
• Hydraulics Fittings
• Nipples
• Adapters
• Flanges
• Food-Hose Fittings

METAL

• Full selection of metal gaskets
• High temperature gaskets up to 1200° F
• High pressure gaskets up to 5000 psi
• Spiral Wound gaskets
• Ring Joint gaskets
• Double Jacketed gaskets
• Cam profiles

RUBBER

• Neoprene, EPDM, SBR, Buna, Silicone, and Fluorocarbon
• Low temperature applications up to 300° F
• Low pressure applications up to 150 psi

TEFLON

• Commercial
• Glass Bell
• Temperatures from 400 to 900° F

HOSE PRODUCTS & ACCESSORIES

Motion Industries’ Hose and Rubber Service Centers highly trained personnel stand ready to assist you in selecting the right hose for your requirements. Our extensive offering of hose and fittings is the most comprehensive package in the industry.

Motion Industries’ Hose and Rubber is committed to using our vast inventory and product knowledge to provide the most appropriate seal based on your specifications. We have years of experience providing both OEM and MRO sealing requirements. Motion Industries serves every industry from Steel Mills to Power Plants, from Pulp and Paper to Chemical, from Agriculture to Pharmaceutical, anywhere there are moving parts and fluid conveyance.

Motion Industries’ Hose and Rubber fabricating facilities utilize state-of-the-art machinery and technology to provide the highest quality gaskets for your application.

GASKETS

• Fabrication
• Non-asbestos sheet goods
• Available in varying size and thicknesses
• Water, oil, mild chemical, and steam applications
• High temperature up to 900° F
• High pressure up to 1500 psi
• 24" gaskets in-ring and full-face in varying materials
